

# WINGCO GENERATORS

## An American Company

We produce our products in our 200,000ft<sup>2</sup> facility located in Le Center, Minnesota, equipped with modern engineering, fabrication and assembly capabilities.

## ZeroStart

A Phillips Tempro brand, these 50 watt heater blankets create direct heat transfer and can be installed in sub-zero temperatures.

### SPECIFICATIONS

PHASE	SINGLE PHASE
VOLTAGE	120V
WATTS	50
BATTERY GROUP <sup>(1)</sup>	22NF, 26, 26R, 51, 51R, 70
CORE TEMPERATURE	60-70° ABOVE AMBIENT
LENGTH	28"
ALLOWABLE OVERLAP	DO NOT OVERLAP
CORD LENGTH	30"
CERTIFICATION	CSA

NOTES: (1) Do not use on lithium ion batteries, nickle cadmium batteries, or battery case material ABS.

# BATTERY HEATERS

Battery heaters maintain cold cranking temperatures to aid in starting your generator. They reduce cold weather exposure and prolong battery life.

## Hotstart

These 65 watt thermal wraps feature a thermostat that maintains battery temperature at 80°F.

### SPECIFICATIONS

PHASE	SINGLE PHASE
VOLTAGE	120V
WATTS	65
BATTERY GROUP <sup>(1)</sup>	21, 24F, 24H, 24R, 24T, 25, 27, 27H, 34, 34R, 35, 75, 78
THERMOSTAT RANGE	60° - 80°F
LENGTH	40"
ALLOWABLE OVERLAP	10" MAXIMUM
CORD LENGTH	72"
CERTIFICATION	UL RECOGNIZED

NOTES: (1) Do not use on lithium ion batteries, nickle cadmium batteries, or battery case material ABS.

Specifications are subject to change without notice.
